### Section 4: Provider Fees

**Cost/Fee Structure** – Check and complete the cost/fee structure you use:

Because student achievement is directly correlated to time on task, Education Station's program fee will vary by district to allow for the maximum number of hours attainable, based upon individual districts' specified per pupil allocations. In general, the program fee will depend upon district-specific variables that impact the program. In order to maximize academic achievement gains, services are not offered to students on an hourly basis. Instead, students will be offered a program that includes the maximum number of hours attainable, based upon individual districts' federally-mandated per pupil allocations. Consequently, the actual cost for services is expected to vary widely by district, depending upon the actual program fee and hours of services offered.
